

BOSPHOTEX

ADVANCED CLEANING TEXTILES

CLEANING TEXTILES & ACCESSORIES

Production-faithful products.
Cost-conscious private-label packs.

EVERYDAY CLEANING. PRODUCTION-READY PACKS.

A focused cleaning-textiles range built around familiar products, accessible materials and packaging formats that can be manufactured efficiently.

Designed for private-label adaptation across English, French and Arabic destination markets.

Production-ready by design

The visual identity changes. The product and its manufacturing logic do not.

01 Product fidelity

Piece count, material, geometry and colour arrangement follow the producer reference.

02 Packaging fidelity

PE bags, shrink film, thin labels, basic cartons and bulk formats remain unchanged.

03 Private-label artwork

BOSPHOTEX graphics are designed for economical flat-print materials.

04 Order confirmation

Language, artwork files, carton quantities and shipment terms are finalised at quotation stage.

Same construction. Better presentation.

Portfolio at a glance

Four clear families. One consistent commercial system.

01 Sponges & Scouring

Kitchen, bath, automotive and professional scrub formats

pp. 06–17

02 Microfiber Cloths

Loose bulk cloths and compact colour-coded packs
